Journal entry 1: I my name is Dut is and I live in a village that Abiem Malual . My job at the village is it get water . I walk we my friends and get water for the whole village the pond is 5 mile east so it is really far. Everytime we go I feel like I am never going to make it. When we get there I feel happy I survived that horrible walk. I day we went to get water and war broke out and are village got attacked and we had run away from home. Some many people died that day. The head person told us to not come back. So ran as far I can from the village.

Journal entry 2: I have been walk for days now and we had formed a group. It was only 20 people and almost people in the group can do work. 4 people get water some other will food to eat and people that will keep at night so we don't get attacked. 2 months in the journey and we are heading west to Kenya to get in the refugee camp Some place to stay at. I has been 2 months of doing the same thing get water get food and at night stay and protect the group. We think when get to refugee camp it will different. We still have a long way to go.

Journal entry 3: It now be 5 months It have been hard for us because it getting hard to find water and food. Many of people have lost their life for such hard condition with little water and food. We have been walking for a long time and I miss my family I miss my sister and brother and my mom and dad . It has been hard to not see family for a long time. Then I found one of my cousin in the group he said he joined 2 days ago seen the war broke out he had to run away from the village. He said that his family died because the soldier came to their village he was one of the lucky one to survive.
It was a sad that he will never see his parents again.

Journal entry 4: It now been 1 year then the war broken out and I had to leave village. Me and my cousin have went through some rough thing like we had to past be the desert and are shoes broken so now we had to walk barefoot. I it was so pany full walk on the rock and pibbles it made bleed some. Then we came across a group like they were Dinka so now we had more people in are group. It was good and bad thing that meant we had more mouth to feed and it really hard to find food. But on good side we had more and they could shoe for the people had no shoe are the one the broken on the long. We are 2/3 from get to the Keyna to refugee camp so we can stay there.

Journal entry 5: Now it has been 1 year and half . We are so close to refugee camp
It has been one of the worst walk I have walk my cousin die because he came across a snake and he got bit. We had nothing to help so just died and it is the only family member die in front of my. Are is doing good now we are pushing thought we will arrive in refugee camp in about few days. Now we got the refugee camp it has more food and water so it will better and have food or water so long days. I they told us that we had to stay in a cabin share it with other people. They have this list that if you are on it you get to go to America. Then one day I was just doing me stuff then people came running at me and said you are son the list Dut you are on the list . I was so excited to get to go to america it was my dream. So I had to pack my bag and go to US . That were my journal end at america we a new family.
